

# Nu Html Checker

This tool is an ongoing experiment in better HTML checking, and its behavior remains subject to change

Showing results for uploaded file index.html

Checker Input

Show

☐ source

☐ outline

☐ image report

Options...

Check by

file upload

Choose file

No file chosen

Uploaded files with .xhtml or .xht extensions are parsed using the XML parser.

Check

Use the Message Filtering button below to hide/show particular messages, and to see total counts of errors and warnings.

Message Filtering

1. 

Warning

 Self-closing tag syntax in text/html documents is [widely discouraged](#); it's unnecessary and [interacts badly with other HTML features](#) (e.g., unquoted attribute values). If you're using a tool that injects self-closing tag syntax into all void elements, [without any option to prevent it from doing so](#), then consider switching to a different tool.
